SUMMARY

Vinit is a Senior Engineer at Socialschools B.V(<https://www.socialschools.nl/>). His expertise lies in writing scalable backend systems in Python, Django, Golang, Node.js and React. He occasionally dabbles with iOS and Android development too.

He enjoys solving difficult problems, debugging and coming up with simple solutions.

At Socialschools, he has worked on APIs, performance, scaling and security of the complete application. With over 5 years of experience in Python/Django, he is able to rapidly build features and debug nasty bugs.
